RELIEF COLUMN.

Has Been Ordered To Hurry Up Its March.

Japs Bore the Brunt Of The First Fight at Pletsang Sunday.

Washington, Aug. 9.—Minister Conger has again appealed for speedy relief. The legations were safe up to Aug. 3. So far they have had 60 killed and 110 wounded.

The United States has acted upon the appeal. An emphatic message has been sent to China through Minister Wu and through Consul General Goodnow, saying in effect that our full demands relative to the relief of the Ministers by the column now advancing must be complied with. It is practically an ultimatum. The developments have caused grave apprehension for the safety of the Ministers. A message has been sent to Minister Conger telling him to be of good cheer and that the relief column is marching to Pekin. Maj. Gen. Chaffee reports the capture of Pletsang. It was accomplished by the Japanese column with heavy loss. They were supported by the British and Americans. The latter suffered no loss. Chaffee's plan for Monday was to cross to the left bank of the Pei-Ho and take Yang Tsun. Field Marshal Count Von Waldersee has been ordered to China, and it is said the Emperor of Germany has arranged for him to be Commander-in-Chief of the allies. The British have obtained permission to occupy the foreign settlements at Shanghai and Indian regiments have been ordered there from Hong Kong. The Chinese "Black Flags" are leaving Hong Kong, presumably for Pekin.

DEATH NEAR LONGVIEW.

Mrs. Northern Passed Away, Aged 65 years.

Mrs. Northern, mother of Mrs. J. H. Pierce, of Longview, died at the home of her son-in-law, a few days ago, aged about 65 years.

She had not been in good health for some months and death was due to the infirmities incident to old age.

She was a native of Georgia, but had been making her home with her daughter for five years.

Two years ago she professed sanctification.

The remains were entered in Hopewell.

SCHOOL MONEY.

Report Made Showing Amount Spent In The County.

Miss McDaniel, County Superintendent, has made a full settlement with the State Superintendent, having disbursed \$32,882.25 of school money for the last school year. Of this \$2,894.28 went to the white schools of Hopkinsville, \$2,775.04 to the colored schools and the rest to the county school districts, white and colored.

BURGULARS AT EMPIRE.

Company's Store Robbed of Cutlery and Pipes.

Crofton, Aug. 9.—The Empire Coal Company's store was entered by burglars Tuesday night. The thieves secured a dozen razors, some pocket knives and a lot of pipes. They effected an entrance by prizing open a window. No clue.

NITRAM.

Will Probated.

The will of the late Mrs. Mary Lou Poindecker has been probated. She bequeathed all of her property to her sister, Mrs. Virginia Ritchie Barnett.

EXPANSION VICTIM.

John McDaniel Dies of Dysentery in Manila.

Other Kentuckians Sacrificed to The Republican Policy of Imperialism.

In the long list of deaths reported from Manila yesterday appeared the following Kentuckians:

"Private Charles Hestlow, Company I. Thirty-first volunteer infantry, died at Manila of dysentery. He enlisted at Bowling Green, and his nearest relative is John Hestlow, of that town.

Private William T. Hedges, Company M. Thirty-seventh volunteer infantry, died at Manila of dysentery. He enlisted at Cynthiana, and his nearest relative is Mrs. O. B. Scott, of that town.

Corporal John A. Henderly, Company M. Thirty-first volunteer infantry, died at Manila of dysentery. He enlisted at Fort Thomas.

Private John C. McDaniel, Company K. Thirty-first volunteer infantry, died at Manila of dysentery. He enlisted at Hopkinsville, Ky., and his nearest relative is Robert T. McDaniel, of that place."

John McDaniel was the youngest son of Capt. R. T. McDaniel and was 23 years of age and unmarried.

He was born in this city, July 7, 1878, and enlisted in the army Aug. 10, 1899, arrived in Manila in October 1899 and died there July 18, 1900. This briefly tells the story that covers the career of a promising young man, one of more than 4,000 who have died in the Philippines.

His father, two brothers and three sisters learned yesterday for the first time of his fate, though he had been dead for three weeks. In their sorrow they have the sympathies of the whole city.

DAMAGE BY FIRE.

Residence on North Clay Partially Destroyed Yesterday Morning.

The residence of Mr. Richard Jones, on North Clay street, was partially destroyed by fire about three o'clock yesterday morning. The flames originated in the cook room and soon spread to the main building.

A very few minutes after the alarm was turned in the fire department was on hand and did some good work. The roof of the building was destroyed. Nearly all of the furniture was saved, but in a damaged condition. The origin of the fire is a mystery. The loss is partially covered by insurance.

PATIENT FROM WEBSTER.

Dies in the Asylum After Brief Illness.

Miss Lizzie Prather died in the asylum Tuesday of acute dysentery, after a brief illness.

She was sent here from Webster county for treatment eight years ago.

The remains were shipped to Slaughter'sville Wednesday for interment.

BIG TENT MEETING.

One Thousand People Attended Services Last Sunday.

The tent meeting at Big Rock, is drawing immense crowds each day and much good is being accomplished. About one thousand people attended the morning service last Sunday. A hundred or more persons from Lafayette and surrounding country are preparing to go next Sunday. The series of meetings may continue throughout next week.

It is noticeable that a river will show a great deal of sand even when it is down in the mouth.

THE EXTINCT COPPER TOE.

New England Boys Were Lard on Shoes

Children kick out the toes of their boots now just as much as they ever did, but the copper toe has gone out of date too long ago to talk about. It was fine, though, in its day. How the copper did wink and glitter in the firelight! Away up in the Maine woods a farmer that could not bear the thought of giving the shoemaker all he earned took an old copper washbowl and cut it up into strips, which he fastened on the toes of the boots of Elbridge and Elmer Ellsworth and Elmer. "There, now!" said he: "Less see you get through them in a hurry. Lawd! I never see boys hard on shoe leather." It was a bright idea, and the more he thought about it the more it was borne in on him that it was a bright idea. He got a patent on it. Elbridge and Elmer Ellsworth and Eddie were kind of ashamed to be seen in their copper toes at first, but when the other boys all crowded around at the district school and said: "Gosh! Woosh! my pa would fix my boots that way," they felt more comfortable and rather happy. From that time on till, for the sake of peace and quietness in the house, if for no other reason, fathers had to buy copper-toed boots for their boys. The Maine farmer got rich and had pie three times a day, and moved to town, and had a haircloth sofa in the front room and a marble-topped center table, with wax flowers in a glass case on it, and everything that heart could wish. But foolishness is bound up in the heart of a child, and it is part of its nature to be hard on shoes. You may beat the laws of the universe for a little while, when they are not looking, but not for long. The day came when the child woke up and realized that it was being robbed of its rights guaranteed under the constitution. Something like this, eh? "We, the children of the United States in convention assembled, do hold these truths to be self-evident?" Not at all, not at all. They said: "Heel! Copper-toes! Copper-toes!" And the coon came down. Harvey Sutherland, in Ainslie's.

MIRROR-WRITING.

A Most Curious Manifestation of a Nervous Disease.

An almost unique case of nervous disease was investigated at the last sitting of the French Academy of Medicine. The patient is a young Roumanian, whose malady has been observed by Dr. Marinaccio, of Bucharest. The most curious manifestation of his disease takes the shape of what is known among scientists as "mirror-writing," which means that the characters are written backward, so that when reflected in a mirror they are to be read in the ordinary way. Dr. Marinaccio had observed that the hands of his patient, when unoccupied, were affected with a nervous trembling which ceased to a great extent when they were used for a definite purpose. Wishing to see what effect this symptom of the malady had on the handwriting, Dr. Marinaccio asked the patient to write a few lines from dictation; to his astonishment he found that the entire passage had been written backward with absolute accuracy. The experiment was repeated several times with exactly the same result, and it is, in fact, impossible for the patient to write otherwise. When asked to trace a word with his foot on the ground it was found to be written backward. The patient being a Jew, a fiscal experiment was made with Hebrew. This language, as is well known, is always written backward, but the patient, reversing, as usual, the normal process, can only write it from left to right. Partial cases of mirror writing have been observed before, but none in which the tendency was so irresistible.—Pall Mall Gazette.

David Ramsay's Journeys.

A Post Runner's rural post-runner connected with the Kirmuirri post office and Alyth, has been a daily post-runner for the last 37 years. For 25 years he covered a distance daily of 24 miles, and 12 miles a day for other 12 years, which makes a grand total of 232,000 miles. During the 37 years he never was known to be off a single day from his post, and never received holidays. He is now bordering on fourscore years, and has just resigned his appointment on account of failing health. His youngest daughter has been appointed in his place. His journeys amount to nine times around the world, to Cape of Good Hope and back 30 times, to New York and back 38 times, from Great Britain to Japan and back 12 times, and only 8,000 miles short of a journey to the moon.

An Automobile Horse.

Objection having been made to the automobile on the ground that it has nothing in front of it to "steady" it, an ingenious man has invented and patented an automobile horse. This horse is not to be placed in front of an automobile carriage, but to be "hitched up" to any carriage. He has the work of locomotion "in his mind," and will draw the carriage after him just as the ordinary unpatented horse would. The motor mechanism in the horse consists of two electric motors, supported upon cross-bars, and driving, through chains and belts, the shafts of the driving wheels mounted on the horse's hind legs. The steering is effected by reins held by the driver, the neck of the horse for this purpose being intersected and mounted upon ball bearings.

MADE PECULIAR BET.

Girl is to Marry One of Two Men.
Depending on Which Ticket Wins This Fall.

Topeka, Kas., Aug. 6.—James Bradley has wagered his sweet-heart, Miss Mary Kinkaid, on the result of the election with Willie Wilkerson. Bradley is a Republican and Wilkerson is a Democrat. They live in Dudley township, Haskell county, in the western part of the state. It is a small township and contains only six qualified voters.

In 1896 it was the only township in the United States which gave a majority for Palmer and Buckner. They got three votes, McKinley two and Bryan one. The wager is on the election in this township. There being no gold ticket this year, Wilkerson hopes to get all three of those votes for Bryan and thus win a bride. The two men have been courting Miss Kinkaid for over a year and both have repeatedly urged matrimony. Being unable to make a choice, she suggested that the question be settled by the election in Dudley township. Her suggestion was adopted.

She enters into the compact and agrees to marry Bradley if McKinley receives the majority of votes in the township, or Wilkerson if Bryan receives the majority. The idea was probably suggested by similar wager made in that county last week. J. B. Johnson wagered his daughter on McKinley's election with James Howard, a Democrat, who is anxious to marry her.

The August, Fiction Number of Scribner's Magazine is a notable one both for its short stories and the usual number of illustrations. The year it will be found especially rich in the particulars as well as in other features. The contents include the names of some of the best-known writers and artists of today, and, as usual, those of new contributors to the Magazine.

Mr. Richard Harding Davis's article, "Proteja in War time," gives a vivid and novel idea of the appearance and curious individuality of the Boer capital, and of the way its people viewed the approach of the British, and a most attractive impression of the stalwart figure and vigorous personality of President Kruger. The comments upon the conduct of a number of the captured British officers, in which they are said to have taken their imprisonment in anything but a "sportsmanlike" spirit, will no doubt excite considerable discussion.

Auction by the Candle.

It is seldom one hears nowadays of an auction sale by time candle, but the old practice is still occasionally resorted to here and there, as for instance in the annual letting of the churchwardens' acres at Aldermaston, midway between Reading and Newbury. The old-world village, the name of which signifies "the elder man's town," has from time immemorial possessed a churchwardens' acre, left by some pious son of the church in early days for providing funds to maintain a perpetual light before the high altar of the parish church. These lamp-acre lands or churchwardens' acres are common to most parts of England, and at the reformation the revenues therefrom were transferred to general church purposes. The recent letting took place at a vestry meeting, when the churchwardens measured off a sufficient portion of a sandle to represent the allotted time, and the candle being lighted the bidding began, the last bidder before the candle went out being declared the tenant for the ensuing year.

The rich man has troubles of which the poor man knows nothing.

In some of the Swiss valleys the inhabitants are all afflicted with goitre or "thick neck." Instead of regarding this as a deformity they seem to think it a natural feature of physical development, and tourists passing through the valleys are sometimes jeered by the goitrous inhabitants, because they are without this offensive swelling. Thus a form of disease may become so common that it is regarded as a natural and necessary condition of life. It is so, to a large extent, with what are called diseases of women. Every woman suffers more or less from irregularity, ulceration, debilitating drains, or female weakness, and this suffering is so common and so universal that many women accept it as a condition natural and necessary to their sex. But it is a condition as unnatural as it is unnecessary. The use of Dr. Pierce's Favorite Prescription strengthens the delicate womanly organs and regulates the womanly functions, so that woman is practically delivered from the pain and misery which eat up ten years of her life between the ages of fifteen and forty-five. "Favorite Prescription" makes weak women strong and sick women well.

ADLAI AS A STORY TELLER.

The Vain Search of a Thirsty Man in a Prohibition Town.

Adlai Stevenson is a better Democrat even than he is a story teller, though in the latter role he comes second to but few. Members of the Iowa state bar association recall with pleasure Mr. Stevenson's appearance at a banquet given by that organization in Sioux City last year. The nominee for Vice President was at the time stopping there at the home of his sister, Mrs. E. S. McCaughey. He was invited to attend the banquet and was quite the lion at the feast, at which no wine was served, and when he was called upon by James O. Crosby, of Garkville, Iowa, president of the association, he arose and remarked that, inasmuch as he was not prepared to make a speech, he would tell a story. The story was about a man who went to a small prohibition town in the state of Maine and while there was seized with a great, abiding thirst for whiskey. There being no saloons, he tried a drug store. There he was told he could get whisky only on the prescription of a physician. He called upon a doctor, who refused to give him a prescription because he could find nothing about his constitution that was wrong.

"Well, what am I going to do about it, doc?" inquired the thirsty man in tones of desperation. He would have been willing to contract the smallpox for the taste of a bit of hot stuff at just that moment.

The doctor was in a good-natured sort of a fellow and in a wise sort of tone he dropped the suggestion that there was a nest of snakes not more than a mile and a half from town and if he could manage to get bit by a snake he would have to have whisky as an antidote, and the doctor would make out the prescription. The man with a thirst was overjoyed and started off to the snake cave. An hour and a half later he returned, tired, dusty and disconsolate.

"Well, did you do as I told you?" inquired the doctor.

"My dear sir," replied the man with the thirst, "I called on the snakes, but discovered that every one of them had their bites engaged for six months ahead. I quit."

State College of Kentucky.

The Agricultural and Mechanical (State College) College of Kentucky, offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Natural School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, each of which extends over four years and leads to a degree. Post graduate courses of study are also provided, leading each to a master's degree. Each course of study is organized under a separate faculty. The general faculty numbers more than thirty professors and instructors.

County Appointees receive tuition, room rent in dormitories, fuel and lights, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

The last Legislature appropriated \$30,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Military tactics and science are fully provided for and required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply.

Last year the matriculation list was 583.

PEPSIN SYRUP CO.

Dear Sirs:—I feel it my duty to write to you and let you know how much good your medicine has done for me. Twenty three years ago I was taken with some kind of stomach trouble and I tried everything I heard of. They did me but little good. Three years ago neuralgia set in on me and I got so poor and weak that I could hardly walk—couldn't work any. My husband received a book about the mail, advertising your medicine, and he sent our little boy to the drug store to get one of your ten-cent bottles. I began to use it. It is strange to say, but it's the truth, the second dose I took gave me lots of relief. I kept on using it for nearly a year and I am as strong as I was before and can do any kind of work. I recommend it all for it seems to cure what would cure anybody. I have gotten others to use it and they say Dr. Caldwell's Syrup Pepsin has done them much good. God bless Dr. Caldwell and his medicine for doing me so much good.

A BROOM BOOM.

Broom Corn Crop Only About Half The Usual.

In sixty days the housewife will be forced to pay more for her brooms.

The broom corn crop is short one-half of what it usually is. When the crop is harvested and the factories begin to make sweepers from it the prices will take a jump.

The local dealers say it is "impossible" to say how big the advance will be, but that it is sure to come. The corn is now selling at \$150 a ton and the new crop will bring even higher prices. A light crop was accompanied with rains & bugs will make the supply one-half what it was last year, so it is said by those in a position to know.

The largest broom corn section is in Central Illinois. Last year it produced 20,000 tons of corn and this year the crop will not reach over 10,000 tons. The section in Kansas produced 12,000 tons last year will raise just 150 tons.

Reports have been secured from all the big crops. They show such a great falling off that it is feared that it will be hard to secure the desired supply. A report from Texas states that not over six car loads will be sent out of that state.

The crop will not reach the factories until the first of October. Therefore the advance in brooms can be expected at once. The advance in cotton caused the Texas growers to abandon their broom corn crop.

All the broom factories are making campaign brooms.

Lapels with both party designs have been gotten up and some are beautiful. The idea was to test the feeling by the sale of brooms. An Ohio firm was surprised to find that as many Bryan brooms were demanded in that state as those with the McKinley design. The Evansville broom factory, one of the largest in the United States, finds the sale of Bryan and McKinley brooms to be about equal. A carload of brooms shipped by the Evansville factory to Colorado all bore the Bryan label.—Owensboro Messenger.

RIPE IN YEARS.

James Bradshaw Dead, Aged 84 Years.

A Good Man Has Fallen Whose Good Deeds Will Live After Him.

Mr. James Bradshaw, one of the oldest and wealthiest men in Christian county, died at 8 o'clock Tuesday night, at his home in the suburbs of Hopkinsville. He had for several years been very feeble and almost blind and made his home with his niece, Mrs. John A. Gunn.

Mr. Bradshaw was in his 84th year and was a native of Christian county. All of his long and honorable life was spent in this county. Until incapacitated for business by old age, he followed farming and accumulated one of the finest landed estates in the county, comprising nearly 1100 acres. The evening of his life has been passed in this city, in the home of Dr. Gunn. He was never married and the children of his brothers and sisters are his nearest relatives. Among these are Mrs. Gunn and her three brothers, the Messrs. Kelly, and Mrs. W. P. Winfree, of this city. The probating of his will, disposing of his large estate, will be awaited with interest.

Mr. Bradshaw was a member of the First Presbyterian church and his funeral services were held yesterday morning at Dr. Gunn's residence. Rev. F. L. Goff officiating. The burial followed at Hopewell cemetery.
